## Beltline Urban Murals Project

## VISION

The Beltline Urban Murals Project is a community driven project that has been transforming the centre of beautiful Calgary, Alberta, Canada into an expansive open-air art gallery since 2017. The project continues to expand with during the 2020 BUMP Festival with 20 new murals celebrating art, music and community.

We believe public art has an important role to play in building community, promoting dialogue and enriching our cultural landscape. Each year, BUMP strives to bring together a diverse portfolio of engaging local, national and international mural artists to create works of art representing different styles, media, people and stories.
